# VERBINDEN MIT DER SOFTWARE

## ABONNIEREN UND WEITERE EINSTELLUNGEN:

Wähle rechts den Tradingaccount, welchen du mit dem System verbinden möchtest. Klicke danach auf „Subscribe to Trader“ und bestätige die Auswahl. Mit Klick auf „Unsubscribe“ kannst du das System wieder verlassen.

Du kannst verschiedene Modi einstellen, um das System zu kopieren:

- Bei Wahl auf „Proportional“ wird die Software alle Trades prozentual im gleichen Verhältnis zu deiner Kontogröße ausführen.

The screenshot shows the TirolRisk Trader interface. On the left, there is a table with account details:

Account number	72158100
Server name	ECN
Account type	CopyFx MT4 ECN
Verified	Yes
Account balance	162.95 EUR
Leverage	1:500
Yield	94.19%
High risk	82.12 EUR
Trades	191
Open trades	-
Profitable trades count	175 (91.62%)
Average trade time	17 hr. 2 min. 59 s.
Max drawdown (for all time)	-78.86%
Worst profit	-10.45 USD (136241505)

In the center, the "Subscribe to Trader" section shows the trading strategy name "RisikoRausch xtrRisk" and a description: "Entscheiden Sie sich für TirolRisk RisikoRausch oder ein Lotterielos? Es ist nicht viel Unterschied. Sie können ab € 100.- dabei sein, und die Achterbahnfahrt kann beginnen. Gehandelt wird nur GBPUSD." Below this, the copying mode is set to "Proportional". A "Subscribe to Trader" button and a "Customize manually" link are visible. A note at the bottom states: "By confirming the subscription, you agree to the conditions described in 'Terms of use of CopyFX service'." On the right, there is a promotional banner for RoboForex Partners with a "\$1,000,000 in cash prizes" and a "Learn more" button. Below that, a dropdown menu shows the selected account: "75009365-ECN 3 MT4 Standard & ECN". A list of account details follows, including account number, currency (EUR), account type (MT4 ECN), and leverage (1:500). A grey arrow points to the dropdown menu.

The screenshot shows the "Trades copy mode" settings. At the top, it displays "Trades copy mode: Proportional change" and "The amount of active subscribers: 1". Below this, the "Trades copy mode:" section has three radio button options:

- Proportional** Proportional (based on the equity ratio)
- Classic** Transactions from a Trader's account are copied to Investor's account with the volume defined as a product of a Trader's initial transaction and the value of the parameter set by the Investor. In this case, account equities are disregarded.
- Fixed** All Transactions from a Trader's account are copied with the same fixed volume set by the Investor in the parameter. In this case, the parameter indicates a physical quantity (in lots) of the volume to be copied by CopyFX to an Investor's account regardless of the volume of a Trader's initial transaction and regardless of the ratio of funds in Investor's and Trader's accounts.

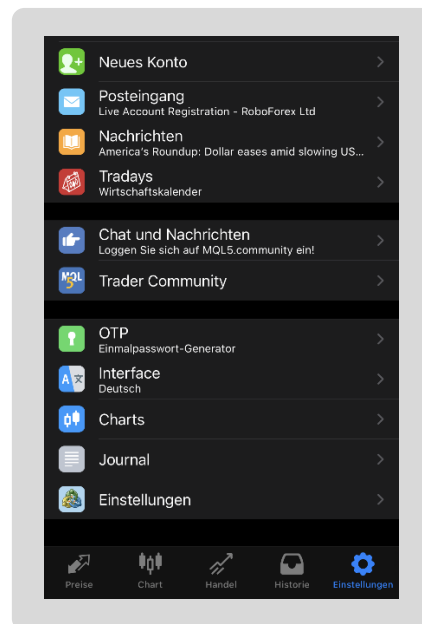

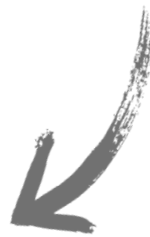

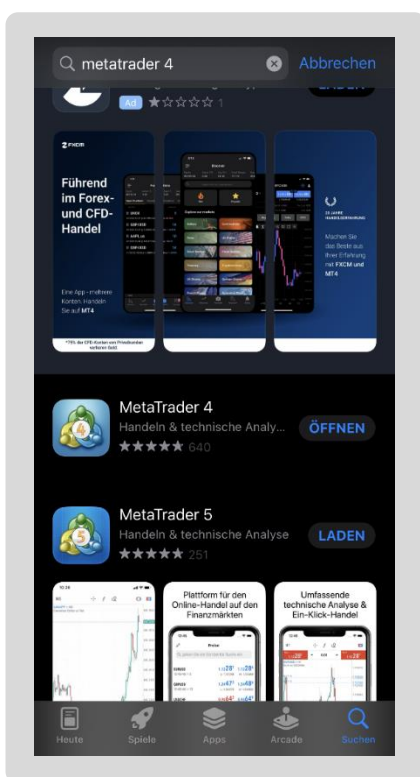

Below the options, there is a "Ratio" input field set to "1.00" and a checkbox for "Round down the copied volume value [?]" which is currently unchecked. At the bottom, there is a "Change mode" button, a "Pause" checkbox, and an "Unsubscribe from Trader" button.
